## Note:

This Authorisation is granted subject to the provisions of the *Ozone Protection and Synthetic Greenhouse Gas Management Act 1989* and the holder's attention is drawn particularly to the conditions prescribed in Regulation 332 of the *Ozone Protection and Synthetic Greenhouse Gas Management Regulations 1995* (as outlined below):

1. keeps up-to-date records showing the amounts of extinguishing agents acquired, disposed of and recovered from any source by the holder during each quarter;
2. within 14 days after receiving a request in writing by the Fire Protection Industry (ODS &SGG) Board, sends to the Board copies of records mentioned above;
3. has equipment that is adequate for the holder's activities including one or more of the following: leak detectors (unless the holder has leak detection procedures in place), vacuum pumps, recovery units;
4. maintains, so that it operates correctly, each item of the holder's equipment that is necessary to prevent avoidable emissions of any extinguishing agent;
5. at least every quarter, checks any controlled extinguishing agent container at the premises for leaks;
6. ensures that any container filled by the holder meets AS/NZS 2030.1;
7. puts into effect a risk management plan for the premises as approved by the Fire Protection Industry (ODS &SGG) Board at the time of the holder's application for authorisation;
8. ensures that, at the premises, any extinguishing agent is handled in accordance with each applicable standard set out in Table 326 of the Regulations;
9. ensures that destruction of any controlled extinguishing agent is carried out only by the holder or an approval given by the Minister under regulation 306; and
10. must accept any surrendered controlled extinguishing agent that has been used, or appears to be intended for use in, fire protection equipment.
