Dear Mr Grono,

**Confirmation of Listing on the National Register of Compliant Equipment**

Thank you for your application to register your Micro-K, NAF S-III and FM200 products on the National Register of Compliant Equipment.

The National Marine Safety Committee is pleased to advise that your application has been successful, and that the details described on the attached printouts have been added to the National Register of Compliant Equipment. This letter confirms that the items described on the attached printouts have been deemed compliant with the relevant provisions of the USL Code/National Standard for Commercial Vessels and will be listed on the Register for a period of five (5) years, contingent upon the product compliance remaining current.

Please check the printouts to confirm the listed information is correct. You should contact the register administrator if there are any errors.

The National Register of Compliant Equipment, where the above information now appears, can be viewed on the web at [www.nmsc.gov.au/nrce](http://www.nmsc.gov.au/nrce).

The National Marine Safety Committee reserves the right to withdraw this registration at any time should the above item prove unsatisfactory in service.

A letter of renewal will be sent to you at the appropriate time.

Yours faithfully

Terry Ehret  
Administrator,  
National Register of Compliant Equipment
